

# Defend Democracy

THE POLITICAL SPIN:	THE FACTS:
It's EASY to do a citizen's initiative!	It's easy if you have millions to spend, like the backers of 71. The cost of doing an initiative is prohibitive for average citizens. 71 will make it impossible for citizens to attempt an initiative.
The constitution is over used and cluttered by initiatives.	The majority of our constitutional amendments (about 2/3) have been done by our legislature. Citizen initiatives have given us many important measures that we wouldn't have otherwise, because our legislature lacked the political will to enact them.
It's time our initiative process reflected the will of Coloradans, not well-funded special interests.	Millions of dollars are being donated by corporations and special interest groups to pass 71. The 1% controls our elections and statehouse, and wants to steal our fundamental right: the citizen's ballot initiative. 71 reflects the will of the 1%, not the will of Coloradans.
A simple majority vote makes it easy for special interests to put amendments in the constitution.	Another word for a simple majority vote is Democracy. This is another attempt of wealthy special interests to silence the people's voice, so that the 1% can rule.

*The Colorado Constitution states: All political power is invested in and derived from the people; all government, of right, originates from the people, is founded upon their will only, and is instituted solely for the good of the whole.  
Don't Let The 1% Steal The Rights Of The 99%!*

**THE PEOPLE HAVE A RIGHT TO THE CITIZEN'S INITIATIVE: 71 DESTROYS THAT RIGHT!**

# Vote NO on 71
